PREFACE

This report is one of a series of reports designed to provide continuous detailed information on selected ground force installations in the Soviet Union and China by the utilization of [redacted] photography.* The installations are selected from the various military districts and regions in the Soviet Union and China and include Category I, II, and III Combat Units, Combat Support Units, Training Areas, Depots and Storage Areas, Test Facilities, and Production Facilities. Installation names are derived from the DIA Bombing Encyclopedia (May 1966).

Each installation is examined for physical changes to the facilities, changes in the level of activity, and the identification of vehicles and equipment.

All changes in facilities and vehicle/equipment type and/or count are referenced to the most recent detailed report on the installation. In cases where reports do not exist, the changes are referenced to the most recent complete mission readout.

The sequence of installation listing within this report is by country, type of target, military district or region, and alphabetically by installation name. A report of this type will follow each [redacted] Mission.

NOTE:

* These reports will include all targets covered on [redacted] photography and those training areas covered on [redacted] photography. All analysis performed on other than the [redacted] referenced on the cover will carry a mission referenced within the individual installation analysis.

A. CANTON MILITARY REGION

Hai-feng Training and Maneuver Area [REDACTED]
(23 01N-115 23E)

Document Reference: CIA/PIR-67267 (SECRET [REDACTED])

CHANGES IN FACILITIES/ACTIVITY:

This AAA training area appears to be abandoned. No significant military activity was observed in the former AAA training area. The former AAA sites are apparently being returned to agriculture.

VEHICLES/PIECES OF EQUIPMENT OBSERVED (By Area):

There were no military vehicles or equipment observed within this training area.

B. NANKING MILITARY REGION

Hsu-chou Military Complex [REDACTED] (34 16N-117 12E)

Document Reference: CIA/PIR-67168 (TOP SECRET [REDACTED])

CHANGES IN FACILITIES/ACTIVITY:

Activity throughout the Hsu-chou Military Complex appears to be at a medium level. There are no significant changes observed since previous photography.

VEHICLES/PIECES OF EQUIPMENT OBSERVED (By Area):

Hsu-chou Army Barracks and Ammo Depot East

Area Ae - sixteen AAA pieces.

Area Ba - six tanks.
